

List of Key Performance Indicators

WBCSD Forest Solutions Group is the global platform where leading business in the forest products sector build and share solutions to sustainable development. FSG's mission is to grow an inclusive circular bioeconomy that is rooted in thriving working forests. As a sign of shared commitment, members of FSG adhere to Membership Principles & Responsibilities, and report annually on a set of KPIs to track progress on the commitments made in the Forest Sector SDG Roadmap.

Working Forests

We are committed to bringing more of the world's working forests under sustainable management

- Share of all owned, leased and managed forests certified (%)
- Total hectares of land (not owned, leased or managed) restored or conserved
- Total number of smallholders reached through support programs
- Nature-related goal(s) with measurable targets identified on a timeline (Y/N)
- Share of total land owned, leased or managed that is designated for restoration or conservation (%)

Bioeconomy

We are committed to scaling up the sector's contributions to a circular bioeconomy

- Share of total revenues invested into R&D (%)

Circularity

We are committed to bringing resource-efficient, bio-based and circular business models to scale

- Share of reused process residuals and waste of total waste generated (%)
- Application of circular design principles or guidance to maximize products recovery potential (Y/N)
- Share of recycled fiber of total fiber used (%)
- Collaborations to increase the recovery of wood fiber products (Y/N)

Climate

We are committed to advancing and strengthening the role of forests, wood fiber products and the forest sector in global climate change mitigation and adaption

- CO₂ equivalent emitted per saleable product (mt CO₂ eq)
- Share of renewable energy on total energy consumed (%)
- Time-bound and verified CO₂ reduction targets aligned with climate science (Y/N)
- Inclusion of Scope 3 emissions in reduction target (Y/N)
- Total number of seedlings grown in nurseries
- Total number of trees planted
- Share of seedlings grown that were sold or donated (%)

Water

We are committed to expanding context-based water stewardship approaches

- Water withdrawn per ton of saleable production (m³)
- Share of water returned per ton of saleable production (%)
- Chemical Oxygen Demand (COD) per ton of saleable production (kg)
- Share of total water consumed in regions of high water stress (%)
- Share of manufacturing operations in high water stress regions with a water consumption reduction plan (%)
- % of water returned to the water source/supply/third parties

People

We are committed to enhancing the sector's attractiveness, diversity, inclusiveness and safety

- Share of female employees (%)
- Share of female employees in senior management (%)
- Numerical, time-bound target on increasing inclusion and diversity (Y/N)
- Total Recordable Incident Rate (TRIR)
- Average training per employee (hours per year)

Communities

We are committed to enhancing the livelihoods and supporting the resilience of forest-dependent communities and local economies

- Total investment in community initiatives (million USD)
- Remedy for human rights abuses in place (Y/N)
- Supplier code of conduct includes provision on minimum wage (Y/N)

Procurement

We are committed to strengthening and enhancing responsible procurement practices, transparency and traceability throughout the value chain

- Share of suppliers evaluated based on code of conduct (%)
- Share of non-certified wood/fiber covered by due diligence and traceability systems (%)
- Share of certified wood/fiber procured (%)
